

Your future. Our Focus!

A trusted
partner
for dentists
in Atlantic
Canada!

EAST COAST
DENTAL GROUP

Mission

Our mission is to be an exceptional partner for dentists across Atlantic Canada. We aspire to create an environment that allows our dentists to grow not only professionally, but also personally while achieving their goals. Our management team provides strategic insight and expertise enabling our partners to be successful and provide the best care for their patients.

Vision

At East Coast Dental Group, we stay true to our company's vision, which is:

We can always do better

We can always go further

We can always find new possibilities

We are a recognized leader in the dental industry offering the best services to patients while rewarding our partners.

Looking forward to taking the next step in your career?

Join an established partner to help grow your ambitions and provide the tools to ultimately better serve patients.

We Offer

Competitive compensation

Mentorship

As a recent graduate or new associate, you will have a network of potential mentors to help guide you towards your goals and objectives.

Possibility of partnership

Resources & Development

We support CE courses and seminars to develop your skills. We continuously look for ways to provide support to our associates to allow them to focus on the patient.

Optimal Patient Care

Our objective is for our dentists to offer the best service possible to our patients!

Increased time with patients

Dentists will be able to focus on providing optimal patient care rather than administrative responsibilities.

Access to the latest technologies

We aim to provide our partners and associates with the most advanced treatment technologies to enhance the patient experience.

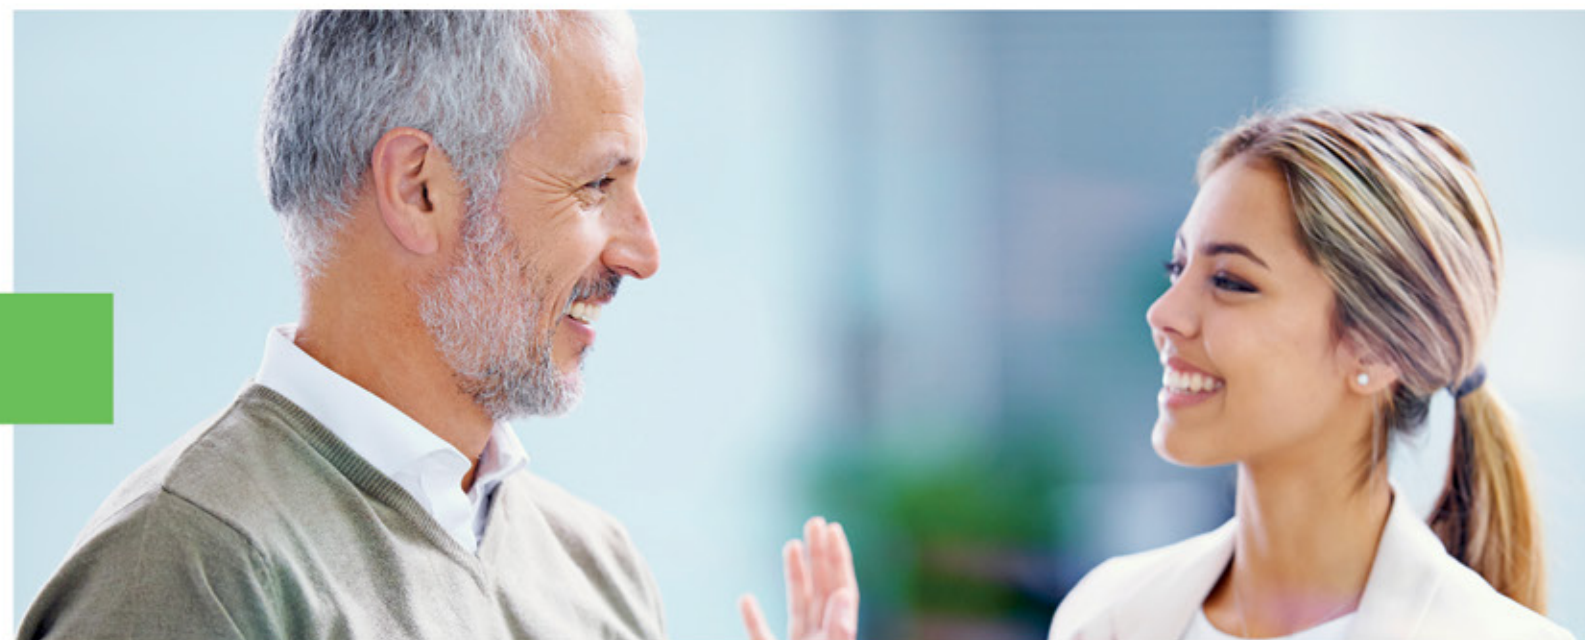

Skill development

Prioritizing doctor and team member development by enhanced training and improving their skills ensuring the patients get the best quality care.

A culture of collaboration

Flexibility

Our company adapts to fit your needs!

To be successful in today's world, we need to adapt; each clinic has unique needs, methodologies and circumstances. For these reasons, it's crucial for us to be flexible in our approach & strategy to make our clinics more efficient.

Ask us how we can better your future!

**Leading for growth!
Building your future!**

Life in The Maritimes

Atlantic Canada is boasted as one of the best places in the country for many reasons. Whether it's visiting the beautiful beaches in PEI, exploring the famous Hopewell Rocks in New Brunswick which features some of the highest tides in the world or driving along the coast of the Cabot Trail in Nova Scotia, we truly have it all in the Maritimes. The cities in Atlantic Canada are wonderful places to live with tremendous growth both economically and demographically.

We Maritimers are known to be very welcoming, friendly people that are proud of our culture. Explore the beautiful national parks, enjoy some of the best seafood in the world and the hospitality we are known for.

Some of the key aspects of settling along the East Coast is the relatively low cost of living, relaxed lifestyle and outdoor possibilities. Whether it's raising a family here or just wanting to be adventurous, we have options for everyone. Activities such as hiking, camping, biking, snowmobiling and snowshoeing and many more are possible.

Creating opportunities here in Atlantic Canada!

Community Involvement

At East Coast Dental Group, we believe we have a role to play in building a better world for future generations, and we strive to make a real difference in our communities we call home. Among the events we organize are the "Our Day of Giving" that emphasises giving back to people in need in the communities.

We also understand that our success depends strongly on our teams. For this reason, we make sure to organize team building events.

Proud to be locally owned and operated
in Atlantic Canada!

*"At ECDG
we believe
that we can
always do better"*

- Nach Daniel -

A LETTER *from the* **President & CEO**

The last 10 years have brought along major changes to the profession of Dentistry. New equipment and technologies, increased overhead, soaring prices of dental practices and drastic changes in the marketplace are making it very difficult for individual practices to survive. Most dental practices continue to struggle with key business functions including HR, marketing, accounting, payroll and other office tasks.

In 2015, we had four dental practices and were struggling with their management. At that time, we began working towards establishing East Coast Dental Group. Our objective was to alleviate various business functions from dental professionals and myself so the primary focus is on dentistry and most importantly on patients. We were able to assemble a team of dedicated managers, accountants, HR and marketing experts to handle the management aspects of the dental clinics. The company has quickly grown and includes multiple locations in the Maritimes all managed under the same umbrella.

Our vision is to continue to grow and to constantly improve our processes to create a prosperous working environment for our doctors and staff. Our dedicated team continuously strive to enhance the various elements of team harmony, leadership and employee engagement.

Sincerely,

A handwritten signature in black ink that reads "Nach Daniel".

Nach Daniel
